

INTRODUCING OUR

# 3D PRINTED ARCHITECTURAL MODELS

THE **3D** PRINTERS

# WHY 3D PRINTING?

- **Extremely high detail** - The high accuracy we can achieve means that no detail needs to be lost.
- **Faster method than traditional models** - Our state of the art machinery works 24/7 to create our Models in the quickest time possible.
- **Simplicity** - Our ultra-modern machines operate with all kinds of architectural concepts, form and content, so the whole process is much simplified.
- **Cost** - The costs of 3D printing an architectural model are generally far lower than a traditional hand built model.

## KITCHENS AND BATHROOMS

# OUR SERVICE

Using an architect's 3D drawing we are able to produce a 3D printable file, which gets sliced up and printed in minuscule layers to create complex designs with varying scales achievable.

Every project is completely bespoke to our clients.

We're obsessed with the details!

Please get in touch to discuss your next project.
